

Side stabilizers

LH Lift manufactures both automatic and manual side stabilizers.

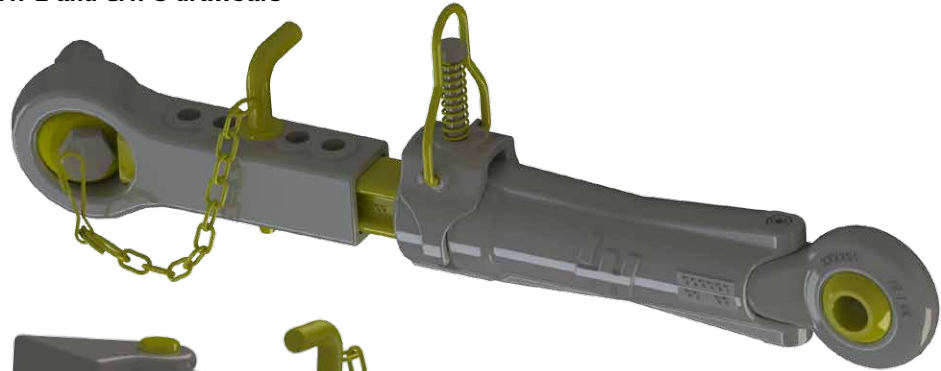

Automatic LH Lift side stabilisers:

- For mid-range and big tractors
- Very durable in heavy-duty use, withstands dirt and incorrect use
- Easy-to-use adjustments
- Hole positioning for both CAT 2 and CAT 3 drawbars

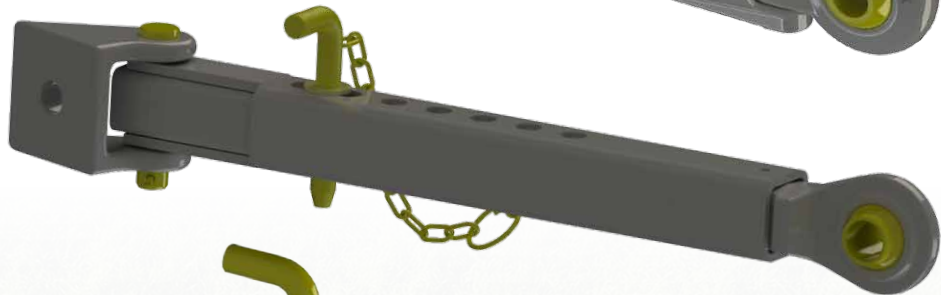

Telescopic LH Lift side stabilizers with pin locking:

- Suitable for varied general use
- Quick locking and removing
- The slotted holes allow some sideways movement for the implement

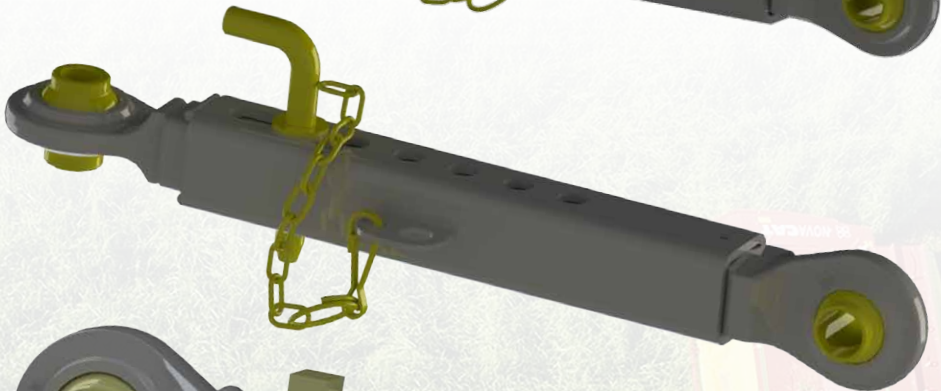

Automatic side stabilizer

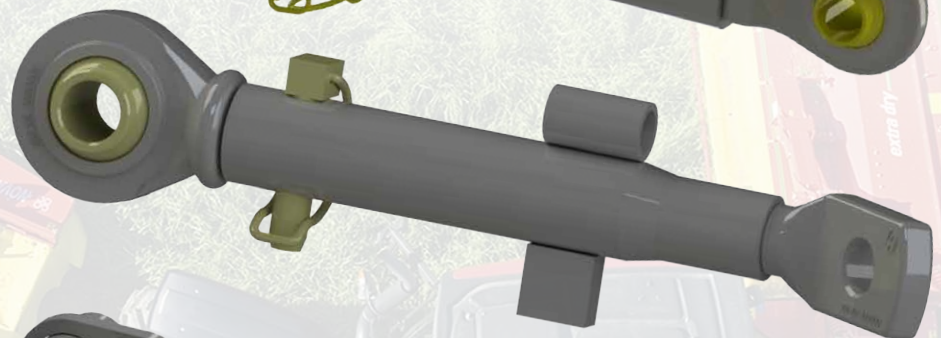

Side stabilizer with pin adjustment and clevis

Side stabilizer with pin adjustment and ball ends

Side stabilizer with screw adjustment
